### Team Worldwide Names Randy Sinker President of the Company

<Dallas, Texas> February 1, 2021

Team Worldwide, a global 3PL company, has appointed Randy Sinker to the position of President. With the focus on technology, service, and operations, it was a strategic move to play, bringing Randy's extensive experience in the industry. After celebrating Team Worldwide's 40-year anniversary in 2019, there is a tremendous opportunity for the company in the next decade. To ensure Team is a top choice in the industry in terms of global solutions, innovation, and growth, Mr. Sinker will focus on providing solution-oriented strategies that will resonate with our client base.

In Randy's 40 years of logistics industry experience, he has held various senior-level roles including VP of Operations, Vice President Strategic Accounts and Chief Operating Officer. During his time at Team Worldwide, he has played an instrumental role in innovating processes, reigniting marketing efforts and developing business operation strategies. As President, he will use his background and connections to drive sales and enhancements with our product portfolio, information systems and external communications.

Jason Brunson will remain in the role of Chief Executive Officer of Team Worldwide, as well as hold his position of Chairman of the Board.

"This strategic decision is just one of the many milestones Team Worldwide has celebrated throughout our 41-year history," said Jason Brunson, Team Worldwide's CEO. "We are confident in Randy's ability to help guide Team through the next phase of growth with his energy, collaboration, creativity and client-centric approach."

"Our reporting structure is simple, I report to our Branches and clients," said Randy Sinker, President of Team Worldwide. "Our model provides tremendous flexibility in terms of network expansion, client solution development, technology and local control. As the industry continues to change, our ability to adapt and innovate is a testimonial to our success and future opportunities."
